

# Beselt Self Watering Round Planter

Model Number

BRSW-35

The Beselt Round Self Watering Planter was designed at the request of a customer looking for a planter to aesthetically compliment the other products in the Beselt family of products. It's the perfect complement, not only utilizing the low maintenance attributes of a powder coated aluminum frame but takes advantage of the recent advances in self watering technology. These types of planters have revolutionized the balance between water consumption, vibrant and healthy plantings and the efforts and time input it takes to do this, particularly in dry climates. The unique built in water reservoir stores and captures all the water that comes in and directs it to the plantings. Water consumption is minimized through evaporation now directing more than 80% to when and where its needed. The benefits also extend to labour savings. Planters in the summer months require almost daily water applications to keep the soil moist and the plants healthy. Once the root systems have been established the reservoir wicks the water up to them reducing the need for daily visits and in many cases eliminates the need for watering from weekly to even monthly depending on the rainfall in that particular area. In area's where there is heavy rainfalls not only does it store the water but the build-in overflow drain ensures the soil does not get too saturated. Lastly, in municipal applications where the planters need to be relocated in the winter months, the entire unit can also be easily moved by forklift as there are slots in the base specifically designed for this purpose.

## Material Specifications

Marine Grade Aluminum Frame  
Stainless Steel Hardware  
Super Durable Powder Coating  
100% Recycled Plastic Slats  
Western Red Cedar  
Accoya Modified Pine  
Hardened Bamboo

## Recycled Content

Recycled Content by Weight: 0%  
100% Recyclable

## Customized Solutions

Larger Soil Capacity Options of 36 Gallon /137 L and 49 Gallon/187 L

## Product Dimensions

Height: 21.5 inches / 54 cm  
Depth: 35 inches / 89 cm  
Length: 35 inches / 89 cm  
Weight: 70 lbs / 32 kg  
Reservoir Capacity: 25.5 US Gal / 96 L  
Soil Capacity: 3.9 Cubic Feet / 109 L

## 100% Recycled Plastic Lumber Colours

## Unstained Natural Wood Alternatives

## OVER 30 POWDER COATING COLOURS

\*Premium powder colours incur a surcharge per item
