The Larson Bench sports a unique contemporary double pedestal leg design with a stately comfortable seat and back rest. It came about as a result of a 'happy mistake' on one of our other benches. (The seat and back supports had been welded on backwards). So, in an effort to salvage the project the lumber was re-spaced and another board was added. This created a new concept and it seemed like the right time to incorporate some new design features such as capped ends and limited board overhang. Voila!! The Larson. As with some of the other products, this bench shares the last name of a close friend. The bench is available with or without armrests and bistro style table.
