

# Modena Backless Bench

Model Number

MSB-6 (6ft)  
MSB-5 (5ft)

Rounding out the Modena family of site furnishings is the newly redesigned Modena Backless Bench. This modern and versatile bench is extremely comfortable due to the slightly rounded seating surface. The sleek and stylish cast aluminum armrests and legs, made from recycled automobile and truck rims, extend past the leading edge of the seat section to discourage skateboard tricks that can cause damage to the surface. Using the full weld system not only keeps the bench competitively priced, makes the product sturdy, solid and ready to take on the busiest of places.
