

Modena Bench

Model Number

M-6 (6 ft)
M-5 (5 ft)

The Modena Bench was born from an internal design challenge between two creative staff members at Wishbone, who set out to craft something bold, fresh, and sustainable. The result is a truly contemporary piece that checks all the boxes: unique aesthetics, exceptional comfort, and high recycled content. Its standout feature—a continuous, curvilinear one-piece arm and leg design—gives the bench a distinctive profile that immediately invites interaction. A tight board layout combined with intentionally angled seat and back components brings balance between modern geometry and inviting comfort, making it an ideal choice for spaces seeking a non-traditional, eye-catching presence. True to Wishbone's commitment to sustainability and durability, the Modena Bench incorporates 100% recycled aluminum in the cast leg ends, produced in-house and finished with a full weld system to ensure lasting strength and structural integrity. Perfect for urban landscapes, campuses, and architectural settings that embrace innovation and sustainability.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating
100% Recycled Plastic Slats
Western Red Cedar
Accoya Modified Pine
Hardened Bamboo

Customized Solutions

Custom Powder Coating
(Setup Charges May Apply)
Gifting Program
