The Parker Bench is a versatile and attractive bench which appeals to every demographic. It also satisfies a need to match the curves and flow found in modern play parks. Incorporated into the design is a lower backrest for comfort and ample space for a dedication plaque. In keeping with our goal of manufacturing products that last decades, this bench is low maintenance and has high durability. The natural flow of the armrest ties in with the leg assembly making this bench both extremely strong and aesthetically pleasing. Available with or without armrests. The "Parker" is a natural name for this bench given that most of the installations are in parks!
