

Pipeline Waste Receptacle

Model Number

PLTR-27

Lid Shown is Optional

For those looking for a budget-friendly solution for waste containment, the Wishbone Pipeline waste receptacle is an ideal design. The primary cost in making a receptacle is the material that goes into its construction. This simple design focuses on reducing these costs while maintaining reasonable capacities. How did we do this? While most liners in waste receptacles sit several inches above the ground taking away valuable space, the Wishbone Pipeline waste receptacle's aluminum liner sits directly on the ground. As a result, we save on costs which get passed on to the customer. The reduced height makes it easier for the removal of garbage bags and maintenance and while this receptacle style maximizes capacity the design keeps the visual impact on the streetscape minimized.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating
100% Recycled Plastic Slats
Western Red Cedar
Accoya Modified Pine
Hardened Bamboo

Customized Solutions

Custom Powder Coating
(Setup Charges May Apply)
Recycled Plastic Lid with 9" Opening
Bottle and Can Recycler
Side Ashtray
INST-1 Stainless Steel Bolt-Down Kit

Recycled Content

Recycled Content by Weight: 85%
100% Recyclable

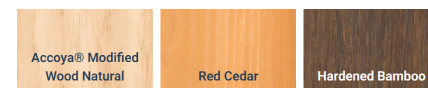

Product Dimensions

Total Height: 27 inches / 68 cm
Total Depth: 22.5 inches / 58 cm
Length: 22.5 inches / 58 cm
Weight: 52 lbs / 24 kg
Capacity: 27 US Gal / 102 L

100% Recycled Plastic Lumber Colours

Unstained Natural Wood Alternatives

OVER 30 POWDER COATING COLOURS

*Premium powder colours incur a surcharge per item
