

# Rutherford Heavy Duty Picnic Table

Model Number

RPTFS-6

Outdoor gathering spaces need flexibility as needs of the community change. Creating a table that can be moved around for different kinds of outdoor events, allowing for creative gatherings is a necessity. Due to the recent demand for portable products that can withstand all kinds of weather, this picnic table is a perfect pick. Used in Whistler for over 8 years, this product has shown its ability to withstand the harshest weather and use. Heavy-duty design paired with extra table and seat supports is light enough to be moved yet too heavy to walk off with. This table offers users a few options: an umbrella hole for extra comfort and shade, a BBQ holder on one end to keep the tabletop clean and minimize damage, and wheelchair accessibility on one or both ends of the table. With 'fewer faces in bigger spaces', the adaptability and functionality of this table ticks all of the boxes.
