

TENAJ 2 Space Bike Rack

Model Number

TJBR-34

The sleek and modern design of the TENAJ Bike Rack will enhance any contemporary setting with its artistic form. The open design provides a range of ways to lock and secure bicycles. The durable aluminum frame and powder coated finish prevent scratching and corrosion over time and can be installed in virtually any configuration depending on the application (see Installation Gallery).

The name for this futuristic bike rack came about when the designer's wife commented that although several of his friends already had a 'namesake' bench she was still waiting for hers. He thought long and hard. As an avid cyclist, she was thrilled when this bike rack was cleverly named after her. Hint: some things work better backwards.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating

Customized Solutions

Custom Powder Coating
(Setup Charges May Apply)
