

# TENAJ Backless Bench

Model Number

TJSB-6 (6 ft)  
TJSB-5 (5 ft)

The futuristic design of the TENAJ backless bench has a gravity-defying look. The flowing armrest and leg design combined with the cantilevered seat round out this unconventional modern bench. Without the visual cue of a backrest, users (and sometimes even installers!) can be uncertain as to which side is the 'front' of the bench. Regardless, the TENAJ is surprisingly balanced and comfortable in either direction. The TENAJ backless bench has a low environmental impact by utilizing 100% recycled plastic lumber and aluminum from recycled automobile rims.

## Material Specifications
