

# TENAJ Bench

Model Number

TJB-6 (6 ft)  
TJB-5 (5 ft)

Named in honor of one of the owner's wives, Janet, the TENAJ Park Bench blends graceful curves with modern design to create a striking and comfortable seating solution for outdoor spaces. The cast aluminum leg ends, proudly produced at our foundry in Parksville, BC, give the bench a refined and durable foundation. Combined with a super durable powder-coated, marine-grade aluminum frame, the TENAJ Bench is built to endure the demands of municipal environments—resisting corrosion, fading, and wear for long-lasting performance. Thoughtfully engineered, the armrests and seat back are strategically designed to deter skateboarding while maintaining the exceptional comfort that Wishbone customers have come to expect. This smart balance of function and form ensures the TENAJ Bench is as practical as it is beautiful, offering a welcoming place to sit while protecting the bench's longevity in public spaces. With its flowing lines, sturdy construction, and timeless appeal, the TENAJ Park Bench is a standout addition to parks, plazas, streetscapes, and gathering areas.
