

Thompson Backless Bench

Model Number

TSB-6 (6ft)
TSB-5 (5ft)

The decorative yet rugged Thompson is an upgraded version of the contoured backless bench. Originally designed as one-off product for the designer's deck, this bench wound up setting the standard for Thompson Rivers University. For their 25th anniversary they were looking for an ornate bench design that still satisfied functional requirements such as durability and ease of maintenance. The Thompson is right at home in any high traffic, high usage environment such as schools and outdoor malls. Take this bench to the next level with built-in LED lighting (see Installation Gallery). Available in 6'-12' lengths.
