

Urban Form Easy Access Waste Receptacle

Model Number

UFEATR-30 (With Siding)
UFEATRAL-30 (All Aluminum)

Class-leading design combined with affordability and functionality make the Urban Form Waste Receptacle a must-have to enhance any outdoor setting. The 4 sided 8" openings allow easy access and the funnel design ensures all waste is directed towards the liner. Like the rest of the Urban Form Series, the horizontal lumber orientation and minimalist look match well with modern architectural elements. Innovative features such as the keyless hidden door latch system make emptying and cleaning a breeze for any maintenance worker. Minimal fasteners and clever design mean that the recycled plastic boards can be easily replaced if damaged. The solid top design helps deter locals from emptying their household waste and keeps out water and critters.
