

# Urban Form Large Capacity Waste Receptacle

Model Number

UFTR-55

\*Foot pedal shown is optional

Class-leading design combined with affordability, functionality and now large capacity make this Waste Receptacle a must-have in circumstances where there is need for increased waste collection. The 55 gallon capacity allows for increased volume while saving time and money in handling the bags less frequently. Like the rest of the Urban Form Series, the horizontal lumber orientation and minimalist look match well with modern architectural elements. Innovative features such as the keyless hidden door latch system make emptying and cleaning a breeze for any maintenance worker. Minimal fasteners and clever design mean that the recycled plastic boards can be easily replaced if damaged. The 8" opening helps deter locals from emptying their household waste and keeps out water and critters. Available with or without a foot operated pedal.
